Postman's codegen feature

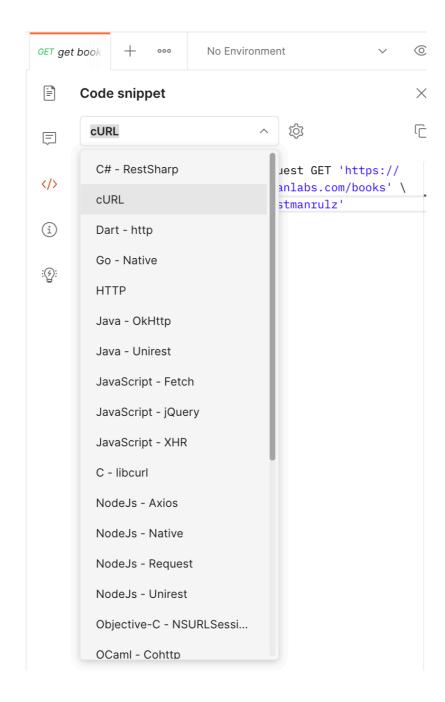

Postman can help you integrate API calls into your applications by generating code snippets in various coding languages.

Generating code snippets

Every request you made has a code generation tab you can access from the code </>> icon in the far right

Once the code snippet generator pane is open, you can select from a dropdown to generate the API request in common coding languages like Python, JavaScript, C, NodeJS and more.

For example, we can generate the **GET /books** request in **cURL** syntax:

Previous

If we copy this snippet into the terminal and press Enter, we make the API call and the response body is printed:

--location --request GET 'https://library-api.postmanlabs.com/book [{"id":"b752dcd9-a48d-41ef-8db5-fc4afbd81661","title":"Myth and Religion","author' "Alan Watts","genre":"philosophy","yearPublished":1996,"checkedOut":false,"isPerma entCollection":false,"createdAt":"2022-04-12T10:53:07.908Z"},{"id":"7ad72643-67af-4 e0d-8d96-551d85327fd6","title":"To Kill a Mockingbird","author":"Harper Lee","genr :"fiction","yearPublished":1960,"checkedOut":false,"isPermanentCollection":false, createdAt":"2022-04-12T10:51:17.541Z"},{"id":"dfb88c0a-7631-4bcb-9766-8663511555c0 title":"To Kill a Mockingbird","author":"Harper Lee","genre":"fiction","yearPubl", shed":1960, "checkedOut":false, "isPermanentCollection":false, "createdAt": "2022-04-1 T21:43:56.750Z"},{"id":"06fb002a-ab51-4d0e-80fb-3b3b802bf7e8","title":"To Kill a M ckingbird","author":"Harper Lee","genre":"fiction","yearPublished":1960,"checkedOu ":false,"isPermanentCollection":false,"createdAt":"2022-04-10T20:43:33.783Z"},{"id "9c49e2cd-738d-4387-ba7f-4b7bc4911807","title": "Myth and Religion", "author": "Alan Watts","genre":"philosophy","yearPublished":1997,"checkedOut":false,"isPermanentCollection":false,"createdAt":"2022-03-31T15:47:53.093Z"},{"id":"85a5424d-535d-48a9-a1 63-8627b84662d7","title":"Continuous API Management: Making the Right Decisions in an Evolving Landscape","author":"Mehdi Medjaoui, Erik Wilde, Ronnie Mitra, Mike Amu ndsen", "genre": "computers", "yearPublished": 2018, "checkedOut": false, "isPermanentColl ection":true,"createdAt":"2022-03-30T00:54:52.606Z"},{"id":"03daae04-c778-45fb-9acl 4c6d19067a9c","title":"Go Design Patterns","author":"Mario Castro Contreras","gen e":"computers","yearPublished":2017,"checkedOut":false,"isPermanentCollection":true "createdAt": "2022-03-30T00:54:52.606Z"}, {"id": "539f89ed-df63-469c-94ce-157e75366de c","title":"Domain-Driven Design: Tackling Complexity in the Heart of Software","au thor":"Eric Evans","genre":"computers","yearPublished":2003,"checkedOut":false,"isF ermanentCollection":true,"createdAt":"2022-03-30T00:54:52.606Z"},{"id":"29cd820f-82f9-4b45-a7f4-0924111b5b89","title":"Ficciones","author":"Jorge Luis Borges","genre":"fiction","yearPublished":1944,"checkedOut":false,"isPermanentCollection":true,"cr eatedAt":"2022-03-30T00:54:52.606Z"},{"id":"14b533eb-5ef3-422a-b037-7b6161ee7020

It's definitely easier to read API responses as a human in Postman...

Now you know how to give your applications superpowers with APIs 🜠!
